DURO-LAST
THE WORLD'S BEST ROOF®

To: Whom it may concern:

I am pleased to inform you that Pinnacle Roofing Systems of Corpus Christi, Texas has been an authorized dealer/contractor for Duro-Last Roofing, Inc. since January of 2005. Pinnacle Roofing has installed over 2.3 million square feet of Duro-Last materials. They have received and maintained all the necessary training and licensing for Duro-Last Roofing, Inc. They may purchase Duro-Last materials and are entitled to the services and privileges which accompany such authorization.

Duro-Last Roofing, Inc. is the pioneer and the nation's largest manufacturer of custom prefabricated roofing systems with over 3.0 billion square feet of in-place roof installations. Duro-Last's headquarters is in Saginaw, Michigan with factories in Iowa, Mississippi, Oregon, Texas, Massachusetts and Florida .

Duro-Last fabricates 80-85% of the field seams under ideal, quality-controlled conditions. Duro-Last also custom manufactures the "critical" flashings, including stacks, drains, parapets, curbs and scuppers, a method which renders other roofing systems obsolete.

Every commercial installation is inspected by a Duro-Last Technical Representative. A standard 15-year warranty is then given, at no cost, to the building owner. Twenty-year warranties are available also.

If you have any questions or should need any further information, please contact me at our Michigan office.

Sincerely,

James W. Miller
